MISSION AND GOAL

Sinology (Chinese Studies) explores the basis of the traditional spirit of the Chinese nation, which is also the ground on which contemporary Chinese individuals cultivate their personal ethical duties and good relations within a harmonious society. Our main aim is to enhance the Greater China Region's (Hong Kong – Macau – Beijing – the Silk Road) function as a Sinological exchange platform and transform it into a cultural forum for Sinologists around the world.

The Sinological Development Charitable Foundation was established by Dr. Elizabeth Woo Li to promote the study of Chinese Culture as an important part of a rising global civilization.

The Greater China Summer Program in Chinese Studies aims at introducing Chinese studies to scholars and key opinion leaders from around the world who are in disciplines other than Sinology.
